

Tree Life BS5837 Course for Arboriculturists

Date: 29th June 2010

Cost: £120.00 (Plus VAT) Buffet lunch included

Venue: The new Tree Life Training Centre, Syston, Leicestershire

Times: 9.30 - 4.30

Attend the 'fungi-recognition and response' 1 day course as well and receive a 7.5% discount when the courses are booked together.

The aim of the course is to provide a program that allows attendees to go away with sufficient working knowledge of BS 5837 in relation to:

- Undertaking a tree survey
- Determining a category of retention
- Preparation of a Tree Constraints Plan and statement of initial arboricultural implications
- Producing an Arboricultural Implication Assessment
- Producing a Tree Protection Plan and an Arboricultural Method Statement.

Each candidate will be provided with templates and other relevant information which they can take away on disk

- Equipment: It would be ideal if candidates come with a laptop computer and Scale rule.
- The day will start with an in depth look at the use of BS 5837 and progress through the preparation of a Tree Constraints Plan, Arboricultural Implication Assessment and discussion on a final development design for a real site. After lunch the candidate will prepare an Arboricultural Method Statement and Tree Protection Plan Appropriate to their final design with the guidance of the course tutor.

We look forward to seeing you at the Tree Life Training Centre, Start time of 9.30
